Instagram - Disappearing Images and Videos

Instagram have decided that now is a good time to introduce a new Snapchat-style feature into the app - disappearing images, a.k.a. *Stories*. Introduced this week around the world the feature allows users to DM an image which will disappear after 24 hours of being viewed.

Although the feature is available within the Instagram app, there is also a new app called *Stories* and the age requirement is 13+.

Is Your Child Prepared for their First Phone?

It's a question that so many parents struggle with, balancing the positives, the negatives, the need, cost and so much more. The problem with such a question is that there is no one-size-fits-all answer.

Darren Laur has written a really useful article for parents, within the article he uses the acronym **PREPARED** which takes away the complexity and allows parents to make decisions based on their own circumstances.:

- P - Purpose.
- R - Responsibility.
- E - Empathy and respect.
- P - Perception of risk.
- A - Adaptability and resilience.
- R - Regulation.
- E - Executive functioning.
- D - Digital discernment.

The article is a really good read.
