## ONLINE SAFETY

[www.esafety-adviser.com](http://www.esafety-adviser.com)

### Talking to your Child about Online Safety.

It's the area that a lot of parents struggle with yet it is the single most important aspect for any child of any age - continuing conversations with children to mitigate risk, including topics that can be very difficult to approach.

The NSPCC has some wonderful resources for parents including age-appropriate conversations and topics, top tips, quizzes and more.

You can find all the resources listed [HERE](#).

### Misleading App and Game Age Ratings

For some time it has been well known that age ratings within stores (e.g. Apple Store, Google Play) have been very misleading and don't reflect that actual age requirements of the app or, occasionally, the game. For example in the Google Play store WhatsApp is rated at PEGI 3 - it isn't even a game! Not only is this confusing for parents, it can also be very confusing for younger children who may think they can download and use the app.

Click [here](#) to read this [press release](#).

If you are unsure of any age requirements, simply Google it or do a search and find on 'age' within the terms and conditions document.

Please follow us on our social media platforms to stay up to date with our school news!
