- Monday 1st December: Year 3 & Year 6
- Monday 8th December: Nursery and Reception

ONLINE SAFETY

www.esafety-adviser.com

Roblox Age Estimation

As the most popular game in the world Roblox has come under a lot of criticism recently, particularly in regards to predatory activity on the platform. Whilst Roblox has always had fairly good parental controls in place, ages of users has always been a concern, particularly adults pretending to be younger children.

Recently Roblox have announced that they are expanding facial age estimation and ID age verification to all users who access the communication features within Roblox, as well as new systems designed to limit communication between adults and children unless they know each other in the real world.

The word 'limit' can be a little concerning as there is no information on what that actually means, but regardless it's definitely a step in the right direction which many parents will welcome. Apparently there have been over 100 safety initiatives since January 2025 on Roblox - there is lots of information for parents [HERE](#).
