ONLINE SAFETY

Switched On to Privacy.

Privacy of information online is an area which is growing and growing, but it can also feel overwhelming. The UK Information Commissioner has created a great new portal for parents and caregivers giving support and advice around online privacy with sections on explaining privacy to children, choosing privacy settings, advice on how to start a conversation, case studies and more.

Link: Kids vs grown-ups: what we really share online. (this is the introduction blog post including a few short videos).

Roblox Kids and Roblox Select

Roblox have been making some big changes recently, and that now includes 'age-gating' so that children and young people get the experience according to their age.

This means that there are now 3 types of Roblox accounts:

- Roblox Kids - for children 5-8 years.
- Roblox Select - for children 9-15 years.
- Roblox - for anyone 16+.

For any users that have not completed an age check, they will be put into the youngest users category and parents can update or correct a child's age through a linked account. The link below will take you to a simplified breakdown of the different accounts.
