ONLINE SAFETY

www.esafety-adviser.com

Protect Neurodivergent Children from Scams in Games

As we all know, neurodivergent children can be amongst those most vulnerable online, therefore more likely to become victims of things like scams. Those with ADHD, autism or other divergent ways of thinking might not recognise when someone intends to do harm.

Internet Matters have put together a brand new free guide for parents which explores how neurodivergent children's unique traits can leave them open to scams, particularly in games.

You can download the free guide [HERE](#).

Gadget Gift Guide

Christmas can be an exciting time when many children are given new devices and gadgets. Ireland's online safety charity, CyberSafeKids, have put together a brand new guide for parents and carers covering:

- The benefits and risks of popular smart devices and toys.
- What you can do to make them safer.
- Age recommendations
- And more.

You can download the guide [HERE](#).
