ONLINE SAFETY

www.esafety-adviser.com

Instagram AI Content PG13

Instagram have come out with their latest 'we prioritise teen safety' feature. This time they have introduced a new way for parents to manage their teens' access to one-on-one chats with AI characters. Teen accounts are now to be guided by PG13 movie ratings, which means that users should only see content that's similar to what they would see in a PG13 movie by default.

AI characters (chatbots) are a significant concern. They were introduced into many apps around 3 years ago and there continues to be reports of multiple failures of so-called safety guardrails with children being exposed to chats, advice and guidance which is entirely age-inappropriate.

The new features:

- Allow parents to turn off their child's access to one-on-one chats with AI characters entirely.
- Allow parents to block specific AI characters.
- Parents will get insights into the topics their children are chatting about with AI characters.

You can find a more in-depth explanation [HERE](#) for the AI chatbots and [HERE](#) for the teen/PG13 accounts.

Character.AI - Teens Banned from Chatbots

Since it first came out a few years ago, Character.AI (and other AI chatbots) have been a significant safeguarding concern for many highly inappropriate chats, advice, and even instrumental in some really tragic outcomes, with some AI companies, including Character.AI facing lawsuits. What would be basic common sense to most ordinary people is that some services are simply not suitable for children, but tech companies continue to fail over and over again and it's usually only down to intense public and media attention where you see positive action being taken.

In the case of Character.AI, as of 25th Nov under 18's will no longer be able to use the chat function, they will only be able to generate content such as videos rather than talk to the characters.

You can read the full article about Character.AI on the BBC website [HERE](#).

DIARY DATES 2025/26
